

GTD with Al-bronze body / Monel disc, shaft

Flange Rating :

ANSI CL.150 / CL.300 / CL.600
PN 10 / 16 / 25 / 40 / 64

Nominal Diameter :

DN50(2") to DN2100(84")

Temperature Range :

-40 °C (-40 °F) to 250 °C (480 °F)

Working Pressure :

Full pressure rating

Features :

- tight shut-off
- low operating torque
- compact design
- excellent control characteristic
- anti blowout shaft design
- easy maintenance

Applications :

- general & petro chemical
- oil refinery / Production
- steel and iron mill
- sugar / paper / gas industry
- shipbuilding
- combined / nuclear power plant
- water / sewage
- other plant engineering

Operating :

- manual hand lever / worm gear
- pneumatic actuator
- electric actuator

Options :

- anti-static device
- manual operator locking device
- bonnet / stem extension
- internal teflon / velzona coating
- low temperature design
- TA-LUFT packing
- ISO 15848 packing
- (ISO FE AH - CO1 - SSA 0 - t-196C, 400C) - CL 900 - ISO 15848-1)
- NACE MR 0103 / 0175
