

# COMPANY PROFILE

## EVERYTHING FLOWS: HARMONY IN FLUID CONTROL

## WE HAVE A POWERFUL MISSION

**WE TRUST IN EXCELLENCE, INTEGRITY AND TEAM-WORK ORIENTATION.**

**EXCELLENCE** means that we understand your needs to offer the most suitable solution with the consistent improvement of Process Performance, Product and Service.

**INTEGRITY** is based on the respect of regulations, environment, and people's safety, to guarantee the highest professional and ethical standards.

**TEAM-WORK** is essential for the development of new ideas and innovation through our Staff Members' interaction.

## WE HAVE A RESOLUTE PHILOSOPHY

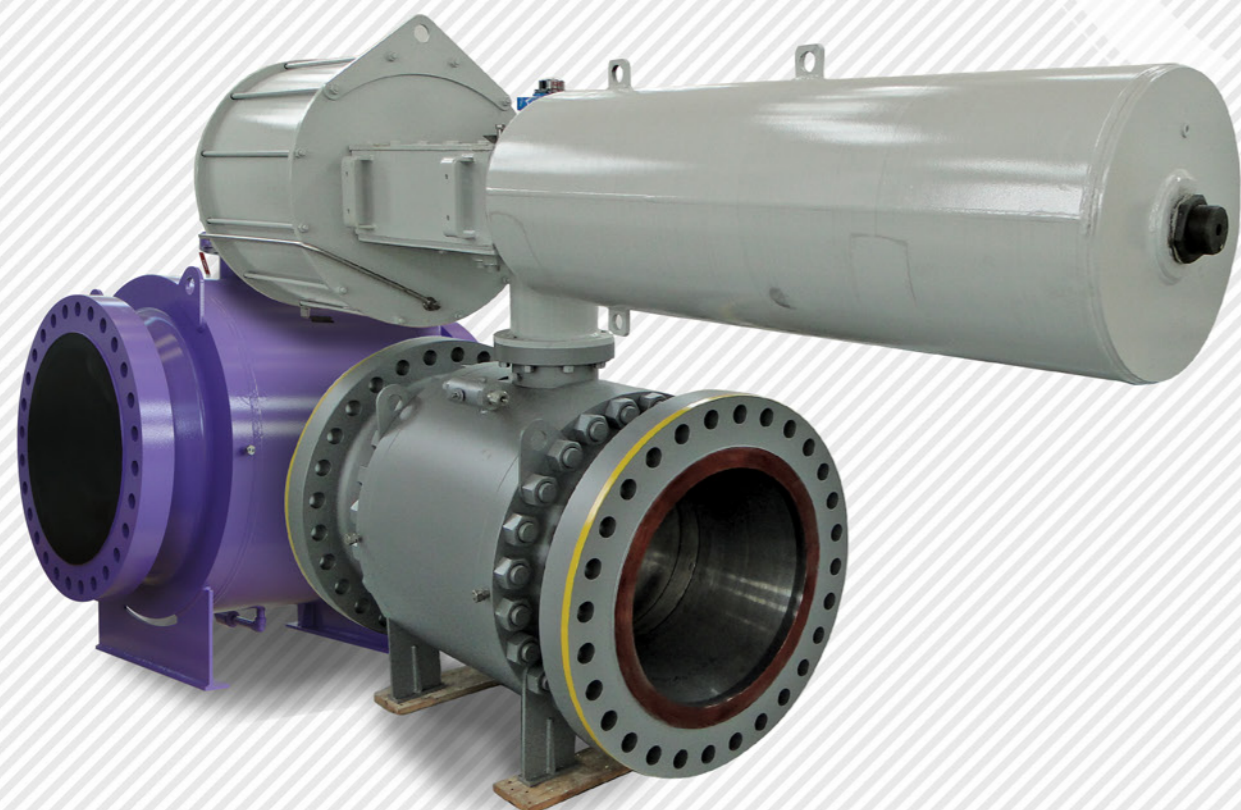

**THE COMMUNICATION WITH THE CUSTOMER IS OUR FLAGSHIP**

We believe in full transparency within partnership: any information is made known with the utmost clarity and promptness.

We answer every question in the most detailed and careful way to take out worries and keep you updated.

You will always be continuously well-informed and comforted with us.

Our pride is the ability and experience to gain your confidence throughout the complete satisfaction of any request.

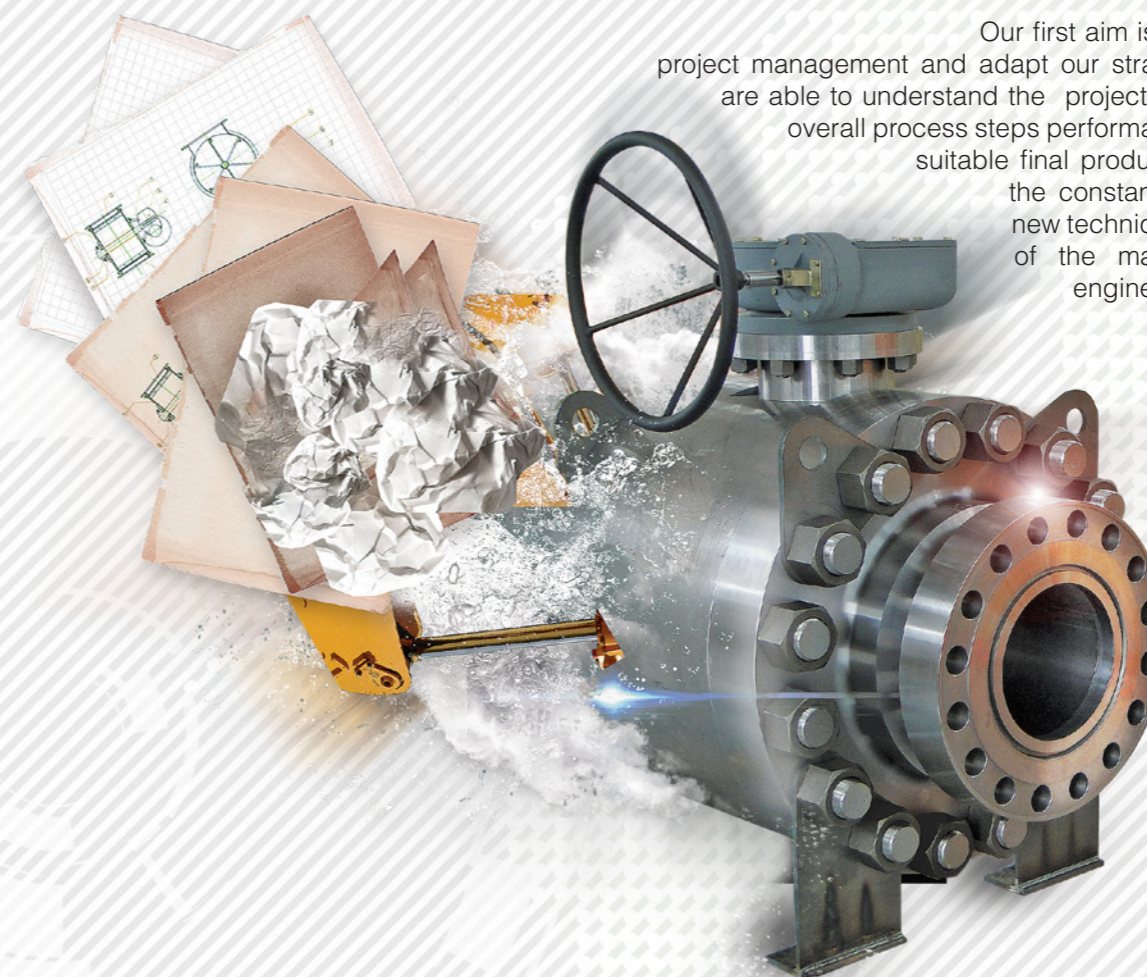

## WE HAVE A STRONG EXPERIENCE

**HIGH-GRADE PRODUCTION ROTATES AROUND CUSTOMER ORIENTATION**

Our first aim is to identify the context for every project management and adapt our strategies to achieve the goal. We are able to understand the project requirements and figure out the overall process steps performance to concrete them in the most suitable final product and service. To do all of this the constant research and development of new techniques as well as the full knowledge of the market and the employment of engineering skills are tremendously important.

Every project is followed step by step to allow corrective and/or preventive actions to be carried out, so that the work complies with the project management and that risks and costs are reduced. We implement this procedure to meet Customer demand and to supply a wide range of customized products to satisfy market's requirements.

Our standard products consist of **TRUNNION MOUNTED BALL VALVES** (divided into three categories: Bolted Body, Top Entry, Welded Body), and **FLOATING BALL VALVES**.

## WE HAVE A GREAT ORIENTATION TO CUSTOMER SERVICE

**WE CARE ABOUT BUILDING OUR PARTNERSHIP**

We are behind you, and you can call for anything you need at any time.

We care about our partnership with you, and our comprehensive assistance is aimed at strengthening this relation.

Our attendance is based on ready and prompt intervention: we are available 24 hours a day / 7 days a week, to reach and resolve any problem everywhere.

We offer technical support with quick service for the upgrade and regeneration of parts of the project, whenever the need may arise.

**"OUR BEST SUCCESS IS THE CONSTANT LONG-LASTING CONNECTION WITH YOU."**
